

# Pineland Squadron Newsletter

January 2007

Vol. 2007

Issue 1.

## A New Year For Pineland! Happy 2007!!!

The Commander's message: get involved for 2007! Lt. Shinn wants maximum effort from all Seniors and Cadets on accomplishing CAP's missions. This means activity participation and more qualification in emergency services.

**Emergency Services:** If you haven't taken the General ES test, do it!! It's not hard! Go to the website below and get qualified! This is the required starting point to participate in missions and SAREXs.

<https://tests.cap.af.mil/ops/tests/default.cfm?grp=dos>

**Unit Activities:** There are great, fun activities coming in 2007. More details to come.

About this Newsletter: We plan to put this out electronically each month. It will be electronic only due to the very high cost and effort involved in creating color copies. Along the right hand side is a meeting agenda column. This shows the meeting nights and the uniform and activities anticipated. Below that are general announcements.

**Want something to appear in the newsletter?** Tell me!...
